Dear Sir:

In response to the Office Action of December 27, 2002, please amend the above-identified application and reconsider the application in view of the remarks that follow.

Specification:

At page 10, lines 3-19, please replace the original paragraph with the following revised paragraph.

-- In FIGURE 3A, an overview 150A is shown of another embodiment of a WAN architecture that is somewhat similar to the network architecture shown in FIGURE 2 except that it includes multiple Primary DNS and Primary EDNS servers in separate geographically remote data centers. The transaction process is similar to the steps discussed above for FIGURE 2 except that each Primary EDNS server separately collects metric information out of band and each Primary DNS server is an authoritative source for zone information.
